Chocus, Brit, str., Joy.-Jardine, Matheson jects in machinery, photography, telegraphy, and in science generally, which the rapid advance of foreign relations has imposed upon them, are here given in extenso. Each and every word in fully illustrated and explained, forming exercises for students of a most instructive nature. Both the Court and Punti pronunciations are given, the accents being carefully marked on the best principle hitherto attained. The typegraphy displays the success of an attempt to make the Chinese and English type correspond KATE TATHAM, Brit. 8-m. sch., Muckersy.— Captain Park, will be despatched for the above on the size of body, thereby effecting a vast concerny of space, schieving a clearness not KRONPRINDSHSEN, Dan. bk. To illustrate the rast scope of the work, the granted at the rates of Premium current at the following facts are submitted for consideration. Chalmers' Youabulary contains about 16,000 Chinese characters, and Medharst's English and Chinese Dictionary about 100,000, whilst this work contains more than 50,000 English words, and upwards of 600,000 Chinese charac-ters. Of these examples this work contains more than five times as Scottand, Am. sch., Holcomb.-Frazer & Co. For practical purposes the arrangement of

the work is so complete, that a reference to its pages enables a person who understands English to communicate effectively with natives who understand nothing but Chinese. In this respect the work will be found indispensable to all Europeans residing in China, and to the natives themselves it explains subjects fully with which very few indeed of them are perfectly acquainted. To parties resident in England and interested in THE Al British Barque China it cannot but be invaluable occasionally. It comprises upwards of two thousand large quarto pages.

SPANIELS. tyrants rather than slaves, and the demands made by the weaker are growing almost as excessive as have been in foretime the requirements enforced by the stronger. But, with all this, the nature which some call womanly, and others spaniel-like, still exists among us. Heaven be praised !- and we have vet left to us a few low-vaiced, gentle, tender-hearted women who find their highest joy in self-suppression and affection, in giving up their own desires for the good of others, and devoting themselves to the service of those they love.

Neither rancour nor revenge enters into the soul of ber whom her deriders call aspaniel, her admirers womanly. Even where she has been ill-treated she can forgive; and the divine precent of seventy-times-seven" seems to her a law of lovoliness by which greater things are to be attained than the childish pleasure of manifesting "a high spirit" and a determination " not to be put She asks for nothing beyond the leave to love, the privilege to bless; and they who are most sorrowful are those who lie nearest to her heart, and for whom her soul coes out with lenderest yearning. To her the joy of life is found rather in loving and worshipping than in being loved and worshipped; and were she able to choose, the would prefer to lie in the shadow of her husband's greatuess rather than that he should be overshadowed by her own. What gifts and graces belong to her she uses as flowers in her chaplet with which she crowns her beloved : and for his sake rather than her own rejoices in her beauty, her wit, her acquirements, her, intellect, as making his life the richer because hers is the lovelier. It troubles comes upon them, she is brave that he may not be saddened; if troubles comes between them, she bears ber share in silence; and even when ill-usage rouses her to dignity, self-protection, and defence, it never rouses her to resentment or retaliation. To the offer of repentance she answers back with forgiveness; and only repeated failures can convince her that her trust has been misplaced, that her tenderness is misunderstood. and that, if she would be true to herself and her ideal, she must abandon all hope of influencing to better things that terrible failure—the real. And this is the bardest kind to learn; the bitterest chapter of that whole tear-stained book of experience in the old story of the pitcher and the well over again. After repeated journeyings the day of final destruction comes; and the poor tool who trusted to the indestructibility even of Christian forbearance, womanly allowance, gets for his reward a handful of clay fragments instead of the pure water from which he thought to drink his fill when and how-
